Summary

Product Leader · profitable growth & unit economics · data-driven · 10+ years experience · led teams of 70+ · AI-native

---

Entrepreneurship

Chief Product Officer

Deli Dela — home-services marketplace «as easy as calling a taxi» (Skolkovo resident; #1 on Product Radar).

- 0 → 500 orders/month and a 400 million rub valuation in 6 months
- LTV/CAC > 5x via land-and-expand: furniture assembly first, then repairs, plumbing and electrical
- Unit-profitable from the first order: Maxidom partnership brings us 10% of its St. Petersburg assembly orders

Chief Product Officer & Co-founder

Team Health — AI-powered B2B platform turning employee-pulse data into actionable recommendations for managers

- Cut staff turnover by 28% in healthcare and retail; 4 paying B2B clients.
- Productized a practice I scaled across dozens of Avito teams; built by two people on an AI-agent pipeline.

Employment

Head of Product

Avito Delivery • 1 yr 3 mos
04/2024 - 06/2025
Avito Delivery — the core of transforming the world's largest classified platform into a transactional business.

My 8 permanent teams (72 employees) have achieved:

- Grew all components of partners logistics:
  - 10% increase in GMV from delivery by partner,
  - 88% increase in GMV from delivery by seller, with a 59% rise in margin,
  - successfully launched a Pickup service with 5 million MAU.
- Launched our own logistics service and grew it from 0 to scale of CDEK in 11 months (vs 3+ years at Yandex.Market).

Chief Data Officer

ManyChat • 3 yrs
01/2020 - 12/2022
ManyChat — chat marketing automation platform with over 1 million users in 100 countries (b2b SaaS).

- Grew Annual Recurring Revenue (ARR) by 26% on a scale of 1+ million users.

Head of Product & Data

Samokat • 1 yr 7 mos
06/2018 - 12/2019
Samokat — one of the world's first FMCG instant delivery service, from 100 to 500K orders/month. Since the full-service launch my teams grew orders per customer x4 and average order value by +28%, made first darkstores profitable
